Long gap between races?

Cardinal Performance Swimming

After a fantastic inaugural event in 2024, Hart SC is working with Cardinal Performance Swimming to bring the Hart SC Masters Open Meet event to you once again in 2025. Cardinal Performance Swimming has changed over the years as a passion project for the founder, Clive Marquis. The main goal has always remained the same though. To provide opportunities for swimmers to compete and train at the highest levels in our sport.

Cardinal has worked with some exceptional athletes who have gone on to compete and win National titles and become British record holders.

With Masters swimming not always receiving the support it needs to flourish, they want to be able to make a difference.

Swim, dryland and gym programming can be hugely expensive, they want to reduce those barriers to entry and make sure performance support is accessible to all. Having access to structured mobility programming, gym programming or sports science should not be closed off to those in performance centres or those who can afford it. They make it possible for everyone to have access to what they need to succeed and achieve their goals. For more information check out their website or come and say hello on the day!
